

50-pin male SCSI connector to host adapter (ribbon cable)

68-pin female SCSI connector to device

Notes:

Schematics based on HP P/N 5182-4551

Should work for both single ended and differential SCSI

Uses 68-pin female PTH connector (or solder to bottom of existing connector, e.g. AEC-7722)

If soldering to existing connector, PCB thickness should be thin (0.031" or so)

Title 50-pin (M) to 68-pin (F) SCSI adapter
